(3) The death benefit provided under this section is first effective on the first day of the month following the date of death of the member. The board shall by rule establish the manner in which installments will be adjusted to reflect investment gains and losses on the unpaid balance during the payout period elected by the member under this subsection. The board by rule may establish minimum monthly amounts payable under this subsection. The board may require that a lump sum payment, or an installment schedule different than the schedules provided for in this subsection, be used to pay the vested amounts in the member's accounts if those amounts are not adequate to generate the minimum monthly amounts specified by the rule.

(3) A member of the individual account program electing to receive installments under subsection (2) of this section must designate a beneficiary or beneficiaries. In the event the member dies before all amounts in the employee and vested employer accounts are paid, all remaining installment

The amount transferred shall be treated as consisting first of the portion of the distribution that is includable in gross income, determined without regard to 26 U.S.C. 402(c)(1).

(4) The board shall adopt rules implementing the direct rollover requirements of 26 U.S.C. 401(a)(31) and the regulations implementing that section, and may adopt administrative exceptions to the direct rollover requirements to the extent permitted by 26 U.S.C. 401(a)(31) and the regulations implementing that section.

(4) For tax years beginning on or after July 1, 2002, the federal adjusted gross income limit set forth in subsections (1) to (3) of this section shall be recomputed by multiplying \$32,000 by the indexing factor described in ORS 311.668 (7)(a)(A), and rounding the amount so computed to the nearest multiple of \$500.

(5) Nothing in this section shall affect the continued deferral of taxes that have been deferred for tax years beginning prior to the tax year next beginning or the right to deferral of taxes for a tax year beginning after the tax year next beginning if subsection (1) is not applicable for that tax year for the homestead.

(6) As used in this section, "federal adjusted gross income" means federal adjusted gross income of the individual or, in the case of two or more individuals electing to defer property tax jointly, the combined federal adjusted gross income of the individuals, or the federal adjusted gross income of the spouse who has filed a claim under ORS 311.688, all as determined for the tax year beginning in the calendar year prior to which a determination is required under subsection (2) of this section. "Federal adjusted gross income" shall be determined under the Internal Revenue Code, as amended and in effect on [December 31, 2008] **May 1, 2009**, without any of the additions, subtractions or other modifications or adjustments required under ORS chapter 314 or 316.

(7)(a) If, after an initial determination under this section has been made by the department, upon audit or examination or otherwise, it is discovered that the taxpayer or spouse had federal adjusted gross income in excess of the limitation provided under subsection (1) of this section, the department shall determine the amount of taxes deferred that should not have been deferred and give notice to the taxpayer or spouse of the amount of taxes that should not have been deferred. The provisions of ORS chapters 305 and 314 shall apply to a determination of the department under this section in the same manner as those provisions are applicable to an income tax deficiency. The amount of deferred taxes that should not have been deferred shall bear interest from the date paid by the department until paid at the rate established under ORS 305.220 for deficiencies. A deficiency shall not be assessed under this section if notice required under this section is not given to the taxpayer or spouse within three years after the date that the department has paid the deferred taxes to the county. Upon payment of the amount assessed as deficiency, and interest, the department shall execute a release in the amount of the payment and the release shall be conclusive evidence of the removal and extinguishment of the lien under ORS 311.666 to 311.701 to the extent of the payment.

(b) If, after an initial determination under this section has been made by the department, upon claim for refund, audit or examination or otherwise, it is discovered that the taxpayer or spouse had federal adjusted gross income in the amount of or less than the limitation provided under subsection (1) of this section, the department shall determine the amount of taxes deferred that should have been deferred and give notice to the taxpayer or spouse of the amount of taxes that should have been deferred. The provisions of ORS chapters 305 and 314 shall apply to a determination of the department under this section in the same manner as those provisions are applicable to an income tax refund. The amount of the taxes that should have been deferred shall bear interest from the date paid by the taxpayer to the county at the rate established under ORS 305.220 for refunds until paid. Claim for refund under this paragraph must be filed within three years after the earliest date that the taxpayer or spouse is notified by the department that the taxes are not deferred.

(8) This section applies to all tax-deferred property, notwithstanding that election to defer taxes is made under ORS 311.666 to 311.701 before or after October 3, 1989.

SECTION 47. ORS 316.116 is amended to read:

316.116. (1)(a) A resident individual shall be allowed a credit against the taxes otherwise due under this chapter for costs paid or incurred for construction or installation of each of one or more alternative energy devices in a dwelling.

(b) A resident individual shall be allowed a credit against the taxes otherwise due under this chapter for costs paid or incurred to modify or purchase an alternative fuel vehicle or related equipment.

(2)(a) In the case of a category one alternative energy device that is not an alternative fuel device, the credit shall be based upon the first year energy yield of the alternative energy device that qualifies under ORS 469.160 to 469.180. The amount of the credit shall be the same whether for collective or noncollective investment.

(b) The credit allowed under this section for each category one alternative energy device for each dwelling may not exceed the lesser of:

(A) \$1,500 or the first year energy yield in kilowatt hours per year multiplied by 60 cents per dwelling utilizing the alternative energy device used for space heating, cooling, electrical energy or domestic water heating for tax years beginning on or after January 1, 1990, and before January 1, 1996.

(B) \$1,200 or the first year energy yield in kilowatt hours per year multiplied by 48 cents per dwelling utilizing the alternative energy device used for space heating, cooling, electrical energy or domestic water heating for tax years beginning on or after January 1, 1996, and before January 1, 1998.

(C) \$1,500 or the first year energy yield in kilowatt hours per year multiplied by 60 cents per dwelling utilizing the alternative energy device used for space heating, cooling, electrical energy or domestic water heating for tax years beginning on or after January 1, 1998.

(c) For each category one alternative energy device used for swimming pool, spa or hot tub heating, the credit allowed under this section shall be based upon 50 percent of the cost of the device or the first year's energy yield in kilowatt hours per year multiplied by 15 cents, whichever is lower, up to:

(A) \$1,500 for tax years beginning on or after January 1, 1990, and before January 1, 1996.

(B) \$1,200 for tax years beginning on or after January 1, 1996, and before January 1, 1998.

(C) \$1,500 for tax years beginning on or after January 1, 1998.

(d) For each alternative fuel device, the credit allowed under this section is 25 percent of the cost of the alternative fuel device but the total credit shall not exceed \$750 if the device is placed in service on or after January 1, 1998.

(e)(A) For each category two alternative energy device that is a solar electric system or fuel cell system, the credit allowed under this section shall equal \$3 per watt of installed output, but the installed output that is used to determine the amount of credit under this paragraph may not exceed 2,000 watts.

(B) For each category two alternative energy device that is a wind electric system, the credit allowed under this section may not exceed the lesser of \$6,000 or the first year energy yield in kilowatt hours per year multiplied by \$2.

(C) Notwithstanding subparagraph (A) or (B) of this paragraph, the total amount of the credits allowed in any one tax year may not exceed the tax liability of the taxpayer or \$1,500 for each alternative energy device, whichever is less. Unused credit amounts may be carried forward as provided in subsection (7) of this section, but may not be carried forward to a tax year that is more than five tax years following the first tax year for which any credit was allowed with respect to the category two alternative energy device that is the basis for the credit.

(D) Notwithstanding subparagraph (A) or (B) of this paragraph, the total amount of the credit for each device allowed under this paragraph may not exceed 50 percent of the total installed cost of the category two alternative energy device.

(3)(a) In the case of a credit for a category one alternative energy device that is an energy efficient appliance, the credit allowed for each appliance to a resident individual under this section shall equal:

(A) 48 cents per first year kilowatt hour saved, or the equivalent for other fuel saved, not to exceed \$1,200 for each tax year beginning on or after January 1, 1998, and before January 1, 1999; and

(B) 40 cents per kilowatt hour saved, or the equivalent for other fuel saved, not to exceed \$1,000 for each tax year beginning on or after January 1, 1999.

(b) Notwithstanding paragraph (a) of this subsection, the credit allowed for an energy efficient appliance may not exceed 25 percent of the cost of the appliance.

(4) To qualify for a credit under this section, all of the following are required:

(a) The alternative energy device must be purchased, constructed, installed and operated in accordance with ORS 469.160 to 469.180 and a certificate issued thereunder.

(b) Except for credits claimed for alternative fuel devices, the taxpayer who is allowed the credit must be the owner or contract purchaser of the dwelling or dwellings served by the alternative energy device or the tenant of the owner or of the contract purchaser and must:

(A) Use the dwelling or dwellings served by the alternative energy device as a principal or secondary residence; or

(B) Rent or lease, under a residential rental agreement, the dwelling or dwellings to a tenant who uses the dwelling or dwellings as a principal or secondary residence, unless the basis for the credit is the installation of an energy efficient appliance. If the basis for the credit is the installation of an energy efficient appliance, the credit shall be allowed only to the taxpayer who actually occupies the dwelling as a principal or secondary residence.

(c) In the case of an alternative fuel device, if the device is a fueling station necessary to operate an alternative fuel vehicle, unless the verification form and certificate are transferred as authorized under ORS 469.170 (8), the taxpayer who is allowed the credit must be the contractor who constructs the dwelling that incorporates the fueling station into the dwelling or installs the fueling station in the dwelling. If the category one alternative energy device is an alternative fuel vehicle, the credit must be claimed by the owner as defined under ORS 801.375 or contract purchaser. If the category one alternative energy device is related equipment for an alternative fuel vehicle, the credit may be claimed by the owner or contract purchaser.

(d) The credit must be claimed for the tax year in which the alternative energy device was purchased if the device is operational by April 1 of the next following tax year.

(e) If the alternative fuel vehicle is a gasoline-electric hybrid vehicle not designed for electric plug-in charging, it must be purchased before January 1, 2010.

(5) The credit provided by this section does not affect the computation of basis under this chapter.

(6) The total credits allowed under this section in any one year may not exceed the tax liability of the taxpayer.

(7) Any tax credit otherwise allowable under this section that is not used by the taxpayer in a particular year may be carried forward and offset against the taxpayer's tax liability for the next succeeding tax year. Any credit remaining unused in the next succeeding tax year may be carried forward and used in the second succeeding tax year, and likewise any credit not used in that second succeeding tax year may be carried forward and used in the third succeeding tax year, and any credit not used in that third succeeding tax year may be carried forward and used in the fourth succeeding tax year, and any credit not used in that fourth succeeding tax year may be carried forward and used in the fifth succeeding tax year, but may not be carried forward for any tax year thereafter.

(8) A nonresident shall be allowed the credit under this section in the proportion provided in ORS 316.117.

(9) If a change in the taxable year of a taxpayer occurs as described in ORS 314.085, or if the Department of Revenue terminates the taxpayer's taxable year under ORS 314.440, the credit allowed by this section shall be prorated or computed in a manner consistent with ORS 314.085.

(10) If a change in the status of a taxpayer from resident to nonresident or from nonresident to resident occurs, the credit allowed by this section shall be determined in a manner consistent with ORS 316.117.

(11) A husband and wife who file separate returns for a taxable year may each claim a share of the tax credit that would have been allowed on a joint return in proportion to the contribution of each. However, a husband or wife living in a separate principal residence may claim the tax credit in the same amount as permitted a single person.

(12) As used in this section, unless the context requires otherwise:

(a) "Collective investment" means an investment by two or more taxpayers for the acquisition, construction and installation of an alternative energy device for one or more dwellings.

(b) "Noncollective investment" means an investment by an individual taxpayer for the acquisition, construction and installation of an alternative energy device for one or more dwellings.

(c) "Taxpayer" includes a transferee of a verification form under ORS 469.170 (8).

(13) Notwithstanding any provision of subsection (1) or (2) of this section, the sum of the credit allowed under subsection (1) of this section plus any similar credit allowed for federal income tax purposes may not exceed the cost to the taxpayer for the acquisition, construction and installation of the alternative energy device.

SECTION 48. ORS 315.354 is amended to read:

315.354. (1) A credit is allowed against the taxes otherwise due under ORS chapter 316 (or, if the taxpayer is a corporation, under ORS chapter 317 or 318), based upon the certified cost of the facility during the period for which that facility is certified under ORS 469.185 to 469.225. The credit is allowed as follows:

(a) Except as provided in paragraph (b) or (c) of this subsection, the credit allowed in each of the first two tax years in which the credit is claimed shall be 10 percent of the certified cost of the facility, but may not exceed the tax liability of the taxpayer. The credit allowed in each of the succeeding three years shall be five percent of the certified cost, but may not exceed the tax liability of the taxpayer.

(b) If the certified cost of the facility does not exceed \$20,000, the total amount of the credit allowable under subsection (4) of this section may be claimed in the first tax year for which the credit may be claimed, but may not exceed the tax liability of the taxpayer.

(c) If the facility uses or produces renewable energy resources or is a renewable energy resource equipment manufacturing facility, the credit allowed in each of five succeeding tax years shall be 10 percent of the certified cost of the facility, but may not exceed the tax liability of the taxpayer.

(2) Notwithstanding subsection (1) of this section:

(a) If the facility is one or more renewable energy resource systems installed in a single-family dwelling, the amount of the credit for each system shall be determined as if the facility was considered a residential alternative energy device under ORS 316.116, but subject to the maximum credit amount under subsection (4)(b) of this section;

(b) If the facility is a high-performance home, the amount of the credit shall equal the amount determined under paragraph (a) of this subsection plus \$3,000; and

(c) If the facility is a high-performance home or a homebuilder-installed renewable energy system, the total amount of the credit may be claimed in the first tax year for which the credit is claimed, but may not exceed the tax liability of the taxpayer.

(3) In order for a tax credit to be allowable under this section:

(a) The facility must be located in Oregon;

(b) The facility must have received final certification from the Director of the State Department of Energy under ORS 469.185 to 469.225; [and]

(c) The taxpayer must be an eligible applicant under ORS 469.205 (1)(c)[.]; **and**

(d) If the alternative fuel vehicle is a gasoline-electric hybrid vehicle not designed for electric plug-in charging, it must be purchased before January 1, 2010.

(4) The total amount of credit allowable to an eligible taxpayer under this section may not exceed:

(a) 50 percent of the certified cost of a renewable energy resources facility, a renewable energy resource equipment manufacturing facility or a high-efficiency combined heat and power facility;

(b) \$9,000 per single-family dwelling for homebuilder-installed renewable energy systems;

(c) \$12,000 per single-family dwelling for homebuilder-installed renewable energy systems, if the dwelling also constitutes a high-performance home; or

(d) 35 percent of the certified cost of any other facility.

(5)(a) Upon any sale, termination of the lease or contract, exchange or other disposition of the facility, notice thereof shall be given to the Director of the State Department of Energy who shall revoke the certificate covering the facility as of the date of such disposition. The new owner, or upon re-leasing of the facility, the new lessor, may apply for a new certificate under ORS 469.215, but the tax credit available to the new owner shall be limited to the amount of credit not claimed

by the former owner or, for a new lessor, the amount of credit not claimed by the lessor under all previous leases.

(b) The State Department of Energy may not revoke the certificate covering a facility under paragraph (a) of this subsection if the tax credit associated with the facility has been transferred to a taxpayer who is an eligible applicant under ORS 469.205 (1)(c)(A).

(6) Any tax credit otherwise allowable under this section that is not used by the taxpayer in a particular year may be carried forward and offset against the taxpayer's tax liability for the next succeeding tax year. Any credit remaining unused in that next succeeding tax year may be carried forward and used in the second succeeding tax year, and likewise, any credit not used in that second succeeding tax year may be carried forward and used in the third succeeding tax year, and likewise, any credit not used in that third succeeding tax year may be carried forward and used in the fourth succeeding tax year, and likewise, any credit not used in that fourth succeeding tax year may be carried forward and used in the fifth succeeding tax year, and likewise, any credit not used in that fifth succeeding tax year may be carried forward and used in the sixth succeeding tax year, and likewise, any credit not used in that sixth succeeding tax year may be carried forward and used in the seventh succeeding tax year, and likewise, any credit not used in that seventh succeeding tax year may be carried forward and used in the eighth succeeding tax year, but may not be carried forward for any tax year thereafter. Credits may be carried forward to and used in a tax year beyond the years specified in subsection (1) of this section only as provided in this subsection.

(7) The credit provided by this section is not in lieu of any depreciation or amortization deduction for the facility to which the taxpayer otherwise may be entitled for purposes of ORS chapter 316, 317 or 318 for such year.

(8) The taxpayer's adjusted basis for determining gain or loss may not be decreased by any tax credits allowed under this section.

(9) If a homebuilder claims a credit under this section with respect to a homebuilder-installed renewable energy system or a high-performance home:

(a) The homebuilder may not claim credits for both a homebuilder-installed renewable energy system and a high-performance home with respect to the same dwelling;

(b) The homebuilder must inform the buyer of the dwelling that the homebuilder is claiming a tax credit under this section with respect to the dwelling; and

(c) The buyer of the dwelling may not claim a credit under this section that is based on any facility for which the homebuilder has already claimed a credit.
