(b) “Substitute care program” means family foster care, family group home care, parole foster care, family shelter care, adolescent shelter care and professional group care.

SECTION 2. (1) For purposes of ORS 339.133 (5)(b), a person whose legal residence is not within a school district but who attends school in the district is considered a resident of the district in which the person attends school if the person receives written consent to attend school from the district school board where the school is located, as provided by this section.

(2)(a) By March 1 of each year, a district school board shall determine whether the board will give consent to persons whose legal residence is not within the school district.

(b) If the district school board will give consent, the board shall establish standards by which consent will be given. The standards must:

(A) Identify the number of persons to whom consent will be given for the school year. The district school board may limit the number of persons to whom consent will be given based on school, grade or a combination of school and grade.

(B) Allow persons who live within the boundaries of the school district the first opportunity to change to a different school in the district if the district school board will be giving consent to attend that school to persons who do not reside within the district.

(3) A person seeking consent as provided by this section must request consent no later than April 1 prior to the beginning of the school year for which consent is being requested. Requests may be submitted before the district school board makes the determination and establishes the standards described in subsection (2) of this section, but may not be considered by the board when the board makes the determination and establishes the standards.

(4)(a) A district school board must give consent to a person who requests consent unless:

(A) The board decides to not give consent to any person as allowed by subsection (2) of this section;

(B) The board decides to limit the number of persons to whom consent will be given and the person was not selected to be given consent based on the selection process described in subsection (5) of this section; or

(C) The board is not required to admit the person, as provided by ORS 339.115 (8).

(b) A district school board may not deny consent or give priority based on race, religion, sex, sexual orientation, ethnicity, national origin, disability, terms of an individualized education program, income level, proficiency in the English language or athletic ability.

(5) If the number of persons seeking consent exceeds the number of persons to whom the district school board has determined will be given consent, the board shall give consent based on an equitable lottery selection process. The process may give priority to persons who have siblings currently enrolled in a school of the school district, but in no event may a sibling be given priority to any open spot in the schools of the school district over any persons who reside within the school district.

(6)(a) Except as provided by paragraphs (b) and (c) of this subsection, a person who receives consent and who is considered a resident of a district as provided by this section shall be considered a resident of the district for all educational purposes. A person who is considered a resident of the district as provided by this section shall continue to be considered a resident of the district until the person:

(C) Enrolls in a school in a different school district.

(b) A school district is not required to provide transportation outside the boundaries of the district to a person who is considered a resident of the district as provided by this section, except that a district:

(A) Must allow persons who are considered a resident of the district as provided by this section to use existing bus routes and transportation services of the district. Transportation provided under this subparagraph is considered approved transportation costs for purposes of ORS 327.013.

(B) May provide a stipend for a person who is a member of a low-income family, as defined in ORS 339.147, in an amount that does not exceed the district's average cost per student for transportation.

(C) Must provide transportation if required by federal law.

(c) After the first year that a person is considered a resident of a district as provided by this section, the district school board may transfer the person to a different school in the district. Any transfers must be made consistent with district policy and do not affect the status of the person as a resident of the district.

(7) A district school board shall provide written notification of the attendance of a person who receives consent as provided by this section to the district school board where the legal residence of the person is located. The written notification required by this subsection must be provided no later than May 1 prior to the beginning of the school year for which consent was given.

(8) Nothing in this section:

(a) Requires a district school board to give consent to siblings if the board determines that consent will not be given to any students for a school year.

(b) Prevents a school district from entering into interagency agreements to provide services to persons who do not reside in the school district or are not considered residents of the school district.

(c) Prevents or otherwise limits a district school board from providing consent to a person who has received consent from the district school board for the school district in which the person resides, as provided by ORS 339.133 (5)(a).

SECTION 3. (1) Section 2 of this 2011 Act and the amendments to ORS 339.133 by section 1 of this 2011 Act first apply to persons who seek consent for the 2012-2013 school year.

(2) Nothing in section 2 of this 2011 Act or the amendments to ORS 339.133 by section 1 of this section affects the status of a person who was considered a resident as provided by ORS 339.133 (5) prior to the 2012-2013 school year.

SECTION 4. ORS 329.485 is amended to read:

329.485. (1) As used in this section:

(a) "Content-based assessment" means testing of the understanding of a student of a predetermined body of knowledge.

(b) "Criterion-referenced assessment" means testing of the knowledge or ability of a student with respect to some standard.

(c) "Performance-based assessment" means testing of the ability of a student to use knowledge and skills to create a complex or multifaceted product or complete a complex task.

(2)(a) The Department of Education shall implement statewide a valid and reliable assessment system for all students that meets technical adequacy standards. The assessment system shall include criterion-referenced assessments including performance-based assessments, content-based assessments, and other valid methods to measure the academic content standards and to identify students who meet or exceed the standards.

(b) The department shall develop the statewide assessment system in mathematics, science, English, history, geography, economics and civics.

(3) In addition to the assessment system implemented under subsection (2) of this section, the department may make available to school districts and public charter schools an assessment system that uses criterion-referenced assessments including performance-based assessments and content-based assessments to:

(a) Measure a student's progress in achieving the academic content standards for the student's current grade level;

(b) Determine the grade level of the understanding, knowledge or ability of a student, which shall be determined regardless of the actual grade level of the student and may be determined by adapting the assessment during the assessment process as a result of the performance of the student;

(c) Track and provide reports on the progress of a student based on the information provided under paragraphs (a) and (b) of this subsection; and

(d) Provide predictions of anticipated student progress that are based on the information provided under this subsection and not on the current grade level of the student.

(b) School districts and public charter schools may implement the assessment system described in subsection (3) of this section.

(5) Each year the resident district shall be accountable for determining the student's progress toward achieving the academic content standards. Progress toward the academic content standards shall be measured in a manner that clearly enables the student and parents to know whether the student is making progress toward meeting or exceeding the academic content standards. In addition, the district shall adopt a grading system based on the local school district board adopted course content of the district's curriculum. The grading system shall clearly enable the student and parents to know how well the student is achieving course requirements.

(6) If a student has not met or has exceeded all of the academic content standards, the school district shall make additional services or alternative educational or public school options available to the student.

(7) If the student to whom additional services or alternative educational options have been made available does not meet or exceed the academic content standards within one year, the school district, with the consent of the parents, shall make an appropriate placement, which may include an alternative education program or the transfer of the student to another public school in the district or to a public school in another district that agrees to accept the student. The district that receives the student shall be entitled to payment. The payment shall consist of:

(a) An amount equal to the district expenses from its local revenues for each student in average daily membership, payable by the resident district in the same year; and

(b) Any state and federal funds the attending district is entitled to receive payable as provided in ORS 339.133 [(2)] (1)(b).

SECTION 5. ORS 339.115 is amended to read:

A person whose 19th birthday occurs during the school year shall continue to be eligible for a free and appropriate public education for the remainder of the school year. A district school board may admit nonresident persons, determine who is not a resident of the district and fix rates of tuition for nonresidents.

(2)(a) A district must admit an otherwise eligible person who has not yet attained 21 years of age prior to the beginning of the current school year if the person is:

(A) Receiving special education and has not yet received a high school diploma as described in ORS 329.451 (2); or

(B) Receiving special education and has received a modified diploma, an extended diploma or an alternative certificate as described in ORS 329.451.

(3) The obligation to make a free appropriate public education available to individuals with disabilities 18 through 21 years of age who are incarcerated in an adult correctional facility applies only to those individuals who, in their last educational placement prior to their incarceration in the adult correctional facility:

(a) Were identified as being a child with a disability as defined in ORS 343.035; or

(7) Notwithstanding ORS 339.133 (1)(a), a school district shall not exclude from admission a child located in the district solely because the child does not have a fixed place of residence or solely because the child is not under the supervision of a parent, guardian or person in a parental relationship.

(8) Notwithstanding subsection (1) of this section, a school district:

(a) May for the remaining period of an expulsion deny admission to the regular school to a resident student who is expelled from another school district; and

(b) Shall for at least one calendar year from the date of the expulsion and if the expulsion is for more than one calendar year, may for the remaining period of time deny admission to the regular school program to a student who is under expulsion from another school district for an offense that constitutes a violation of a school district policy adopted pursuant to ORS 339.250 (6).

(9) A child entering the first grade during the fall term shall be considered to be six years of age if the sixth birthday of the child occurs on or before September 1. A child entering kindergarten during the fall term shall be considered to be five years of age if the fifth birthday of the child occurs on or before September 1. However, nothing in this section prevents a district school board from admitting free of charge a child whose needs for cognitive, social and physical development

would best be met in the school program, as defined by policies of the district school board, to enter school even though the child has not attained the minimum age requirement but is a resident of the district.

SECTION 6. ORS 339.134 is amended to read:

339.134. (1) Notwithstanding ORS 339.133 [(4)] (3), a child with a disability shall be considered a resident for school purposes in the school district in which the child's parent or guardian resides if:

- (e) The child's parent or guardian and the school staff can demonstrate that it is in the best interest of the child to continue to attend the school the child was attending prior to the placement. The best interest of the child may be demonstrated by factors, including but not limited to the following:

 - (B) A change in the child's routine would be detrimental to the child; or
 - (C) The child has developed and maintained a network of personal contacts, support services and friends and a sense of community within the school.
