

Update on Health Reform

Suzanne Hoffman, Interim OHA Director

Judy Mohr Peterson, Oregon Medicaid Director

Lori Coyner, Director of Health Analytics, OHA

Senate Interim Committee on Health Care & Human Services

December 8, 2014

Access to coverage

- 95% of Oregonians are insured
- 972,000 OHP members
 - 359,000 since Dec. 2013
- 90% in coordinated care organizations

Renewals (Redeterminations)

- Like other expansion states, Oregon received waiver to defer redeterminations to focus on bringing new enrollees in
- Most enrollees renew with expedited process
- Fast-track enrollees fill out new application to renew: HealthCare.gov
- Outreach: several pieces of direct mail, phone calls, CCOs, media, community partners
 - Q&A and more information available at OregonHealthCare.gov
- If people do not renew on time, they can reapply
 - OHP benefits will be retroactive if they have medical costs

Transition to HealthCare.gov by Nov. 15

- Complete
- Private plans are receiving enrollment
- HealthCare.gov is processing Medicaid applications
- OregonHealthCare.gov sending people to right place to apply

Working together

HealthCare.gov

Apply for private health plans and the Oregon Health Plan at HealthCare.gov.

OREGON
HEALTHCARE.gov

Local site to direct people to the right place to apply. Most people will be directed to HealthCare.gov. Also has a PDF application for people with special circumstances.

Phase two – importing technology from another state

- Local online MAGI application and enrollment interfaced with current OHA systems by late fall 2015
- Lowest risk and cost – code is no-cost to Oregon
- Kentucky's system meets our criteria

Overview

About you

Review and Accept Eligibility

Quick Pre-screening

Let's find out if you are able to get help paying for your healthcare costs. You may qualify for Medicaid, KCHIP, or other healthcare payment assistance.

If you want to skip finding out if financial help is available for you, you can start applying for healthcare coverage right now by clicking on this [Apply Now](#) link.

To find out if you can get financial help, we will ask you a few questions. Don't worry. This is quick, easy and secure. We won't keep your answers.

When you are done, you will find out if you may be able to receive help. To find out more about our programs before you apply, you may click on these links.

Next steps

- Fit gap analysis
- Quality assurance vendor

COORDINATED CARE

Year one: CCO

Incentive metrics

- 11 out of 15 CCOs met earned 100% of the quality pool
One CCO earned 70% and three earned 80%
- Incentive metrics: we saw statewide improvement on all 14 of the incentive measures included in the report

Statewide metrics – for reporting to CMS

- Of the 17 other metrics, we saw statewide improvement on 9 measures.
- There were just two measures where we didn't see any improvement statewide or at the CCO level.

Overall, all CCOs improved on...

Ambulatory care: emergency department utilization

- ✓ All CCOs met their improvement targets.

Developmental screening

- ✓ All CCOs met their improvement targets and four met benchmark.

Early elective delivery

- ✓ All CCOs were below the benchmark (lower is better).

Electronic Health Record (EHR) adoption

- ✓ All CCOs met their improvement target or surpassed benchmark.

Patient Centered Primary Care Home enrollment

Mixed results / progress on...

- **Adolescent well – care visits** (7 CCOs met targets)
- **Colorectal cancer screening** (6 CCOs met targets)
- **Follow up after hospitalization for mental illness** (10 CCOs)
- **Follow up care for children prescribed ADHD meds** (13 CCOs)
- **Assessments for children in DHS custody** (12 CCOs)
- **Prenatal and postpartum care** (11 CCOs made improvements)
- **Satisfaction with care** (12 CCOs made improvements)

Measure Selection: A Public Process

**Metrics & Scoring
Committee**

9 member committee, public process, select measures and set benchmarks

**Metrics Technical
Advisory Workgroup**

Ad hoc workgroup with CCO representatives, operationalize metric specifications, make recommendations to Committee

CCO Incentive Metrics 2015

Retired: Early elective delivery
 Follow-after medication for ADHD

Added: Dental sealants for children
 Effective contraceptive use

Challenge pool metrics: SBIRT
 Depression screening and follow-up
 Diabetes HbA1c poor control
 Developmental screening

Expanding Metrics

- Establish incentive metrics program among state employees and Oregon teachers payers through contracting. New contracts with metrics for 2015.
- Establish hospital quality pool program that includes CCO-hospital coordination metrics – aligning 3 metrics with CCOs.
- Work with CCOs to develop alternate payment methodologies and distribution of incentive dollars.

Next Progress Report

- Mid to late January 2015
- Metrics calculated using rolling 12 months (July 2013 – June 2014)
- Will have expanded cost and utilization graphics
- Will have information on the 2014 ACA expansion population (first 6 months)
