

This bill does nothing to stop crime. Like most gun laws, it only harasses law abiding citizens. Like the speed bumps in my neighborhood, that are put on random streets to slow down speeders, They send the speeders to the non-speed bump streets and harasses the locals who live on that street. Like speed bumps that harass or punish all drivers, not just the speeders. Speeders are not punished, they just go around them, but locals are punished for doing nothing. Speeders don't abide by the speed laws, nor do criminals, they just find another way, while law abiding citizens have to put up with harassment for doing nothing. Should we do back ground checks before we sell our car to someone in case he's going to use it to run someone over to kill them,our use it to bob a bank, or commit some other crime.When do we stop making laws that blank-it punish everyone in stead of just criminals. Do we do a back ground check before we give someone a driver licence. Dan Radke. Portland,Oregon.
