

Stop trying to pass un-Constitutional gun lawws. Both our State Constitution and the organic Constitution for the united States of America, Amendment 2, says the right to bear arms "shall not be infringed."

Having to report ownership is an infringement, as well as the fact that when one "registers private property wit the State, then said State assumes title of it.

What is mine is mine, and the Constitution gives me the right to have whatever arms I deem necessary for my personal defense, the defense of my loved ones, my home, and most importantly, my RIGHTS.

Sincerely,

without recourse UCC 1-308

Robert Cook
