

I am 100% opposed to this bill!

I have seen this bill and so many like it come forward each session and is now being shoved through on a straight party line push.

70% of Oregon counties have signed opposition to any more gun laws and yet the elected law makers voted in wish to go with their agenda and not what the people are asking for.

The out of state dollars donated for this cause in direct conflict of what the people want. It is making Oregon a Laughing stock this session and the party line vote is taxing and striping right away as fast as they can get it through the process.

This bill has so many faults and even the very people presenting the bill admit it will serve no help to prevent the false claims they have made.

This bill is a slap in the face of every person that has ever voted in this state.

Because the libtards wish to slam this through on the lies of out of state doners.

The state is in turmoil over the Kitz scandal and who knows how many more will be drug down one the protection of the session is over I demand all these laws and taxes stop until we see how deep the corruption within the branches really was.
