

I want to go on record as opposing SB941. It is a hastily crafted feel good bill that will do nothing to keep guns out of criminal hands. It will only burden law abiding citizens more than they already are. What do you think will happen to our already over ran background check system. I see LONG waits and many mistaken denials coming from the passage of this bill.

Lets just say I am a woman who just got a restraining order on a man who means to do me harm.

Do you think that paper will protect me...nope. I need to go purchase a gun. But due to the underfunded and under staffed state police background check unit, I get delayed for 2 months or falsely denied. How does this bill make me safer?

I urge you to throw this bill out...as far as you can! If it passes I will do what ever I can to make sure those who are taking our god given rights away are recalled asap.

Thanks

Matt Holloway
