

**In Opposition to SB941:** This bill serves no valid purpose other than a “Feel Good” measure to pay back Michael Bloomberg for helping in elections/reelections. **You have no valid empirical evidence of any significant crime being committed involving a private firearm transfer!!**  
It will do **NOTHING** to make anybody safer, or to prevent any crime!!

The tenets of this bill are a direct violation of the 2 Amendment to the Constitution of the United States. It bears reminding that EVERY politician gave an Oath to protect and uphold the Constitution. Passing this bill is a direct violation of that oath!!!!

We also have a Governor that WAS NOT elected by the people. We all know she will simply rubber stamp whatever you present. There is no representation of the electorate.

Please uphold your “Oath of Office” and see this bill committed to the Trash Heap, where it belongs.!!!
