

Senate bill 941 is not needed in the State of Oregon, we already have a background check. Stopping people from giving firearms to family members is just another way to take away more of our freedom. Selling a firearm to a friend is another way of taking away more freedom. How would you enforce this bill, by requiring every gun owner to register all his firearms that are all ready registered when you purchase then. Just passing another bill against firearms in against the 2nd amendment and all you democrats who run the State Of Oregon should be ashamed the way you try to rule this great State
