

My husband and I are totally opposed to this power grab by the Oregon legislature, it makes no difference if you are a gun owner or not; citizens rights are being trampled here. Criminals will not abide by this ridiculous law (if it comes to pass), and that will be ok with all the liberal democrats in Salem. It makes no difference that a big burden will be placed on the law-abiding citizen who wants to gift or pass on guns to friends or family members, as an example. It will be a burden of time and money for nothing meaningful. This bill is just another step in the implementation of total gun registration. How about enforcing the laws that are on the books now and punish those who commit crimes with a gun. Guess that is too easy and doesn't satisfy the power grab in Salem. We citizens are being stripped of our freedoms at a fast pace with this current legislature who is ruling as a dictatorial body imposing their views on all Oregonians. Enough is enough. Do not vote in favor of this ill-conceived bill. Citizens are tired of the current legislators pushing thru these liberal agenda bills in a hasty manner without the proper vetting process or input. It appears that the wishes, concerns and opinions of the citizen have no bearing when it comes to pushing thru the ultra liberal agendas in Salem. That just happened with the so-called "Clean Air" Bill that will not help in the least with global warming, but will cost

Oregonians big dollars in the future. This was just to make a point and make those on the Left "feel good". What happened to working together for the common good of Oregonians. Guess that no longer exists. What a shame. Just one more example of making Oregon a very unfriendly place to retire, work or start a business.

Thank you,

Paul and Becki Stymelski
