

We are offended by the proposal of SB 941. It is basically a bill that would/could lead to registration and confiscation of all guns. This bill as crafted would do **nothing to stop felons** and others who do not follow gun laws anyway!!!! SB 941 would only hurt law abiding citizens of this state and lead to destruction of our constitutional rights.

Sincerely,

To the Honorable Jeff Rhodes:

This email is to try to stop the passage of SB 941. We law abiding citizens need no more law to regulate & reduce our 2nd amendment rights! It is the criminals that will not follow this or any other gun control act. This is just one more step toward regulation, registration & removal of guns from the hands of law abiding citizens.

Sincerely,
William D. Hook
