Subject: In support of HB 3250

Dear House Energy and Environment Committee Members,

I urge you to vote yes on HB 3250.

Nearly all climatologists agree that carbon emissions from fossil fuels are a major cause climate change. HB 3250 will help decrease those emissions, and it will do it in a fiscally sound way that will gain the support of Oregonians as they get their dividend checks and understand that they are helping create a better future.

Please support HB 3250. Do it for the future of Oregon -- and for the future of the planet.

Sincerely,

John Soares
Ashland, Oregon
