

Dear Representative,

I am so adamantly opposed to this proposal! I do not believe for a moment that this bill will stop criminals from doing what they need to do to get firearms... it will be an encumbrance against people just like me. More time.. More paperwork... but it won't change anything except taking money out of my pocketbook and prevent me from being able to participate in 4-H activities with youth in my county. Law abiding citizens follow the law; the lawless do not. Please stop wasting time on bills like this and focus on the issues that really matter to Oregonians.

I work with 4-H youth who happen to enjoy shooting sports. Stop chasing after the law abiding citizens of this state and of your jurisdiction and focus on what matters for our state. This bill would adversely affect our ability to provide loaned guns for the day when 4-H youth attend shoots. Many of these children do not come from homes that can afford to provide them with guns for our sporting shoots. We provide youth in our county with an opportunity to participate in a fun sport with positive support and responsible leadership. Please focus on real issues of the day; people who follow the law with regard to guns are not the problem; people who break the laws already on the books are our problem. SB 941 does not help our state. Please know that as a leader of the youth of our county, we will be following this bill and we will note who voted for and who voted against this bill.

Regards,  
Kirsten Hollenbeck
