

SB941 is nothing but a feel good bill for some law makers. It does not do ONE single thing to curb gun violence or keep firearms out of the hands of convicted felons, or ANY person who wants to purchase a firearm and under already current laws is unable to. They will always find a way to find and purchase a weapon, regardless of ho many laws are passed. They always have. All this bill will accomplish is putting a huge burden on legal gun owners wanting to sell their legal firearms. This law will also be fundamentally unenforceable and eventually fall by the wayside.

For as long as there have been weapons of any type there have been people that would do anything to get them. This includes theft, black market purchases, or just sells on the street. Criminals will ALWAYS find a way to buy and sell firearms regardless of how many laws are passed trying to prohibit this act. Criminals simply do NOT care if there are laws against owning a firearm. If they cared about ANY of the laws in the first place then they wouldn't BE criminals to start with now would they.

I strongly urge a NO vote on this bill that would do absolutely NOTHING to stop criminals from obtaining ANY type of weapon. It would only make criminals out of the people who legally own firearms and wish to sell them. There are already laws on the books that make it a crime to knowingly sell a firearm to a convicted felon. Has this stopped the felon from possessing a firearm? Simple answer is NO, it has not. Vote NO on bill SB941
