Certified Anesthesiologist Assistants

AA Education and Training

Educational Program Requirements

An accredited anesthesiologist assistant educational program must be supported by an anesthesiology department of a medical school that is accredited by the Liaison Committee on Medical Education or its equivalent. The Anesthesiology department must have the educational resources internally or through educational affiliates that would qualify it to meet the criteria of the Accreditation Council for Graduate Medical Education (ACGME), or its equivalent, for sponsorship of an anesthesiology residency program

Although the standards recognize the importance of a basic science education within a clinically oriented academic setting, it is also recognized that some of the supervised clinical practice components of the curriculum may be carried out in affiliated community hospitals that have the appropriate affiliation agreements specifying the requisite teaching faculty and staffing ratios for the clinical experience.

The AA curriculum is based on an advanced graduate degree model and requires at least two full academic years. The current programs are 24 to 28 months. Graduates from all AA educational programs earn a Master's Degree.

Prerequisites

Baccalaureate degree from a regionally accredited college or university in the US or Canada.

English
 General Biology with lab
 General Chemistry with lab
 Human Anatomy with lab
 Human Physiology with lab
 Organic Chemistry with lab
 Biochemistry
 General Physics (lab recommended)
 Calculus
 Advanced Statistics (Case, Colorado, Quinnipiac, and South) *
 Either the Medical College Admissions Test (MCAT) or the Graduate Records Admission Test Examination (GRE).
*Must have taken the MCAT within 3 years of application to any Case Western Reserve AA Program and the University of Missouri AA Program. **

At least eight hours of documented anesthesia exposure by observation (*shadowing*) in the operating room are required by South University, Nova Southeastern University, University of Colorado, Emory University, and the University of Missouri (6 hours). *

*Please review training program websites for specific information regarding prerequisites.

| Master of Science in Anesthesia Average Matriculant GPA | | | U.S. Medical Schools Average Matriculant GPA | | |
|--|---------|---------|---|---------|---------|
| | Overall | Science | | Overall | Science |
| 2014 | 3.48 | 3.56 | 2014 | * | * |
| 2013 | 3.42 | 3.51 | 2013 | 3.54 | 3.44 |
| 2012 | 3.50 | 3.57 | 2012 | 3.54 | 3.44 |
| 2011 | 3.52 | 3.63 | 2011 | 3.53 | 3.43 |
| 2010 | 3.48 | 3.56 | 2010 | 3.53 | 3.43 |
| 2009 | 3.49 | 3.65 | 2009 | 3.51 | 3.51 |

*AAMC's GPA totals from 2014 are not yet available

Training Programs

- South University (Savannah, GA)
- Emory University (Atlanta, GA)
- University of Colorado (Denver, CO)
- Nova Southeastern University (Tampa, FL; Fort Lauderdale, FL)
- Case Western Reserve University (Cleveland, OH; Houston, TX; Washington, DC)
- Quinnipiac University (North Haven, CT)
- University of Missouri (Kansas City, MO)

The Commission on Accreditation of Allied Health Education Programs (CAAHEP) accredits AA training programs. The American Society of Anesthesiologists (ASA) is a CAAHEP member and participates in the accreditation processes for three health professions: Anesthesiologist Assistants, Respiratory Therapy and Emergency Medical Technician-Paramedic. CAAHEP is the largest accreditor in the health sciences field. In collaboration with its Committees on Accreditation, CAAHEP reviews and accredits over 2000 educational programs in 19 health science occupations and is recognized by the Council for Higher Education Accreditation.

Certification

The National Commission for Certification of Anesthesiologist Assistants (NCCAA) was founded in July 1989 to develop and administer the certification process for AAs in the United States. The NCCAA consists of commissioners representing the ASA and the American Academy of Anesthesiologist Assistants (AAAA) and includes physician and AA members (at-large). Graduates or senior students in the last semester of a CAAHEP-accredited AA educational program may apply for initial certification. Such a professional distinction is awarded to an AA who has successfully completed the Certifying Examination for Anesthesiologist Assistants administered by NCCAA in collaboration with the National Board of Medical Examiners (NBME). Certified AAs are permitted to use the designation CAA to indicate that they are currently certified.

The content for the Certifying Examination for Anesthesiologist Assistants is based on knowledge and skills required for anesthesiologist practice. NCCAA has contracted with NBME to serve as a consultant for the development and ongoing administration of the Certifying Examination. A Test Committee of Anesthesiologists and AAs is responsible for writing and evaluating test questions for the examinations. The first Certifying Examination was administered in 1992.

NCCAA maintains a database of Certified Anesthesiologist Assistants for verification of individual practitioners. Hospitals, practice groups, state boards and others may verify an individual AA's certification via a printed verification statement posted on the Verify Certification page of the NCCAA's web site, www.aa-nccaa.org. The web site also contains additional information about the National Commission and about the certification process.

Recertification

AAs are granted a time-limited certificate after passing the initial examination. The process for recertification requires that an AA submit documentation to NCCAA every two years that he/she has completed 40 hours of Continuing Medical Education (CME). In addition, every six years the practitioner must pass the examination for Continued Demonstration of Qualifications (CDQ).

The CDQ examination was first administered in 1998, making AAs the first anesthesia profession to require passage of a written examination as part of the recertification process. Failure to meet any of the above CME or examination requirements results in withdrawal of the AA's certification.
