Subject: Support SB 860

Hello,

I would like to make it be known that I support Senate Bill 860. I fill that this will end the aggressive URs of mental health services so that I can focus on what really matters: treating my clients..and not having to beg/convince an insurance to trust my clinical judgment. During this time that benefits are shrinking while insurance companies are making more and more money this is one more way that we can insure that people are getting proper care and treatment for their hard earned money which they spend on their premiums. We must hold insurance companies accountable.

Thank you for standing up for mental health Parity,

Lacy Cooper, M.S., LPC
