**Subject:** Support SB 860

As an LMFT in Oregon for 12 years, I have seen multiple insurance companies restrict care for clients with severe trauma and symptoms of extreme depression or anxiety that could lead to hospitalization and extreme decompensation. Despite my efforts in advocating for my clients in most cases I have been unsuccessful in getting them the care they need.

Please support this bill for those that don't always have the means or skills due to their illness to get what they need! I appreciate your willingness to consider this plea and your service to our state and community.
