**Subject:** HB2705,2706,2707

Be it known that we are opposed to HB 2705,HB2706,HB2707. These bills are nothing more than another effort by the government of Oregon to control what ranchers, farmers and other water users do on their own land. They set the stage for disaster with heavy fines per day. Their intent isn't to encourage but force; bills don't say where or how the funding will come to pay for this 'encouragement' to keep track of water usage. This is just another socialist policy to give government more information to control it's 'people'. When do 'we the people' start coming into *your* homes to tell *you* how to use the water *you* pay for?
