

As an Oregon business owner and 2nd amendment supporter, my hope is that you do NOT support these two Oregon Bills.

Although I understand that the committee wants to keep guns out of the hands of bad guys, please understand that taking away someone's constitutional rights before they are convicted of a crime, isn't right. I realize that there are people who are yet to commit a crime who maybe should not possess a weapon but to target gun possession specifically makes no sense to me.

Please, do not support either of these bills.

Erik Timmons

President/CEO
