

This bill has the potential to be abused and used to disarm our law abiding citizens, it not only violates our 2nd AMENDMENT rights but our 5th as well.

Oregon does not have the gun crimes that other anti gun states and cities have.

I feel this is too vague and can be used for political and or retaliatory measures please do not approve such a bill.

(Hypothetical situation)

Johnny and his wife Cindy are going through a bad divorce, Johnny has a girlfriend and Cindy is very angry at Johnny so, Cindy calls law enforcement says Johnny threatens suicide or to harm her (Cindy) police then arrest Johnny and Johnny goes through judicial system. Cindy (wife) brings her friends and family to back her story and the judge declared Johnny a risk.

SB.868 would strip him of his 2nd amendment rights.

Now this is hypothetical but very possible and things like that scenario does happen every day.

Please think of your responsibility to do right by law abiding people in Oregon.

Thank you for your time.

Sincerely Shawn Orcutt.
