

Honorable Senators,

Please accept my testimony against amendments to SB719 dealing with firearms. As I understand them, they open the door to abusing a person's right to due process. I believe a person should not be punished, or have their rights removed, before having been accused and convicted of breaking the law. This seems like a very basic part of the system of law we live under and are protected by. The ERPO, as formulated in SB719 amendments, erodes that.

Sincerely,
Paul Woods
Corvallis
