

I'm writing to express my concerns over the current bills regarding gun control.

SB 797 - I don't see any provision that would prevent this from being abused and turned into what is functionally a denial. 3 days is ample to perform a background check, and if the concern is that more time is needed than that there should be a bill stipulating another fixed timeline. This bill seems to be written to be abused.

SB 868 - This is a denial of due process. How can we advocate for someone to have their rights removed based on hearsay?

Thank you for your time
