As a landlord in grants pass Oregon I have 45 houses that I rent out and I find it interesting as tight as the housing market is that you people want to keep adding more restrictions on the rental industry. And as a landlord if this bill passes I'm going to start selling off my rentals make it even harder market as people start getting out of the rental business at this time we need to encourage people to get in the rental .it just seems that if things don't go the way some people wanted to we just keep add more rules as a landlord myself we try to be as fair as possible and Fair price as possible.
