

I need to know you have my back.
My rental is in Washington co.
I have 1 house I rent to supplement my disability.
I live in Seaside to afford living on less than 25k.
The down side for all this amending will really hurt
those on the edge of making it. Right now a landlord can
no cause evict, that doesn't show up as a tenants record, or
in best cases doesn't cause court action.
Why not give landlords an incentive. Like a tax break.
A tenants class for those who have evictions.
Please stop making it more difficult to be a landlord.
For 10 years I managed 14 unit apartment.
Thank you Priscilla Sweet
