

Hello,

I am writing in hopes that you will vote in a way that my vote will matter. We are a democracy and it's turning democracy with money. This inequality is hurting everything that I hold dear and as a mother of two small girls I am passionate about keeping our system working until this russia/reality show/social media frenzy passes and we can assure people of a voice. The more we disenfranchise our public, the less faith that public has in the system. This is an opportunity for you to show that you trust our most vulnerable and disenfranchised citizens and recognize the worth of all members of society. The popular vote is what our democracy needs and voting against humanity in favor of corporations and big money means more insecurity for the other 98% of society.

This letter is late, but I hope you consider it this afternoon when casting your vote. I know there is always going to be inequality and that is fine, but this is pure greed and corporate oligarchies are unable to maintain order when people decide they can't pay them to be rich anymore. We are all in this together, please vote for the people.

Thank you so much for your public service, please keep it public and don't let lobbying special interests take the place of my child's future.

Jenny Lovold
