Subject: House Bill 4029

This bill should not be passed, or moved forward. It takes away choice and options for the future. Its not effective compromise legislation, but a blunt method to achieve the goal of a few opponents.

As a resident of SW Bend I support recreation that is possible without needing to drive a car, which causes pollution, and parking and traffic related issues.

This bill effectively kills a simple bridge solution that would allow pedestrian access, and more use of publicly owned Oregon. Please do not allow it to move forward.

Respectfully,
Gary Huscher
SW Bend resident
