

Greetings,

After taking care to find out what is actually in the house bill HB 4135 I wanted to take the time to voice my concerns over this proposed legislation.

The bill is a poor example of clearly written legislation. This bill has enough wiggle room to NOT even protect Oregonians' rights to basic food and water. I've had a parent deal with an end of life issue and this proposal would create more problems for end of life care, I'm urging you as a concerned citizen to please vote **no on HB 4135**

Thank you for listening to your constituents,

Scott, Beth and family
