

Reference: HB4075

February 6th, 2018

In FAVOR of House Bill 4075

There are numerous reasons for returning Northwest Hillsboro into Urban Reserve designation. The reasons 'for', by far, outweigh the reasons 'against'. In attempting to reduce it to the fewest words, the 'against' are almost entirely to preserve farmland. It is without question that the 1700 acres, of Northwest Hillsboro, would be of considerably better use as an urban reserve for the efficient planning of the inevitable growth of the community. A community that will need homes, parks, trails, school, stores, efficient transportation and jobs. Northwest Hillsboro is ideal for this. Northwest Hillsboro has been and is now growing primarily grass and clover, and this activity does not begin to match the benefits to the people that Urban Reserve designation would produce.

Please give the community an efficiently planned and beneficial future by supporting HB4075
