To whom it may concern,

I am in support of HB 4075. It does the right thing from a land use planning perspective. It will offer future potential for a great community. Delaying putting this property in Urban Reserve will only make the fix more difficult and expensive in the future. It remedies the low level of acres of projected growth needs in the area during the next 20 years. Farming on this land has become nearly impossible due to the rapid growth. This property is next to the economic engine of Washington County and the infrastructure planning that is needed for this important part of Washington County should be planned for now. This bill would enable proper planning for the future growth of Hillsboro. This bill will create an opportunity for a highly functioning community with schools, parks, trails and housing adjacent to the State of Oregon's fastest growing employment center. Please pass HB 4075.

Thank You,  
Marty Lenzen
