Subject HB 4075

Please support HB 4075.

I have children and grandchildren. My 3 girls resulted in 14 grandchildren with the oldest grandchild now 21. They all live nearby and will soon be seeking jobs, looking for homes, sending their own children to nearby schools, and hoping for recreation in parks and trails. Their future is very nearby. If NW Hillsboro were to be placed into Urban Reserves today it will take years before it could finally be a benefit to my children. NW Hillsboro presently grows no significantly beneficial crops in comparison to the needs that will be here in the next ten years. HB4075 needs your support now so it can fill the needs of our growing and soon to be adult kids.
