

Subject: HB4075

Dear Oregon State Legislators

I was born and raised in Hillsboro, Oregon. It will be my and my family's home for the rest of our lives. For Hillsboro or any other city in Oregon to thrive it is paramount to carefully plan and control growth. In order to do that the planners must know what they have available to work with.

Returning the acreage in Hillsboro back to its original standing will not change anything at this time or in the near future. What it will do at this time is return the ability to PLAN for the future of Hillsboro and its residents. Planning needs to start now not years into the future. Please help us by supporting HB4075.

Thank you

Dusty and Denise Bybee
Hillsboro, OR 97124
