

This email is to express my strong opposition to HB 4145. The definition of "family or household members" is excessively broad, and allows an easy way for vindictive or disgruntled people to make trouble in this way for someone who legally owns a firearm and is no threat to anyone. Furthermore, having to "prove" one's innocence is counter to our legal system -- in America we are innocent until proven guilty.

The wisest and best way to combat violence with firearms is to teach firearm safety to everyone. A bill to that effect is one that I would support.
