

I thoroughly oppose HB 4145.

HB 4145 attempts to create and label a class of people as bad and presumed dangerous simply because someone puts a restraining order on them.

Ludicrous! We already have federal law that confiscates firearms from people of extreme risk protection orders.

With HB 4145, an ex-spouse, ex-lover or a half-cousin can get a restraining order on you and single-handedly ensure you can't keep your guns. No proof. Just complete the paperwork, and with a swipe of a pen, a class of people is defined as "bad" and their federal right to keep gun is obliterated.

Stop this bill!
