

The definition of family in this bill is overly broad to the point of being ridiculous. Anyone related by blood or marriage, any ex spouse, boyfriend, girlfriend, former sex partner (even a one night stand). Oregon already has a law where a person has to give up their guns if a complaint is filed. Broadening it just begs for false accusations from anyone who has a grudge or plain doesn't like a person from a large group of people. Anyone who has had a relationship end badly would be vulnerable to false claims. To top it off anyone who contests the ruling is trapped by the bill's catch 22 of losing their 2nd amendment rights if they lose the appeal. This bill is not needed and is an obvious attack on the 2nd amendment. Please oppose this bill.

Sincerely,
Jerry L Darbyshire
