Oregon Legislature

RE: HB 4029

The Commute Options Board of Directors does not have a position on HB 4029. While we are listed on a flyer from the Central Oregon Conservation Network (COCN) supporting a proposal for legislation to protect the Deschutes River and State Scenic Waterways, our organization did not participate in that vote. When a resolution is found to connect the Deschutes River Trail from the East, we would like to participate..

Sincerely,

Jeff Monson
