Dear Senators,

As a mom, physician and public health advocate I want you to support SB 1508 to fund DEQ. I also want you to oppose SB 1541 which strips DEQ of authority and strips the Cleaner Air Oregon rules of important health based standards.

In an era in which the White House is abdicating power to corporations and abandoning its duty to protect human health and the environment, it is imperative we act at the State level to protect people-especially children-from the effects of toxics.

Thank you,

Jenny Pompilio MD, MPH
