To Whom It May Concern:

I am writing to urge you to pass SB 1508, and to oppose SB 1541.

We must fund DEQ's Cleaner Air Oregon program, and oppose reckless proposals to limit their authority to regulate based on health-based standards. I happen to live in North Portland, in a spot with known air quality hazards. For blue-collar families like mine and others all around the State, we rely on you to fund these essential government safeguards for our health and to protect it from political threats.

Unregulated industry will not police itself when there is every profit motive to ignore or cover up hazardous emissions. The free market can not function without oversight -I'm urging you to fund that oversight.

Thank you for your time and consideration.
