The Oregon State
Association of Electrical
Workers (OSAEW)
represents over 9,000
members of the
International Brotherhood
of Electrical Workers who
live and work throughout
the state of Oregon

February 22, 2018

Chair Riley and Members of the Senate General Government and
Accountability Committee:

**The Oregon State Association of Electrical Workers (OSAEW) urges
your support of HB 4022.**

OSAEW is made up of the seven Oregon IBEW locals and employs
over 9,000 members in Oregon who work in the electric utility
industry and perform electrical installations, maintenance and
service. HB 4022 will allow the state of Oregon's government
agencies more flexibility in the number of electric vehicle charging
stations they can install at their locations.

Oregon has already made a strong commitment to increasing electric
vehicles on our roads. This legislation helps support that
commitment through continued investment in essential charging
infrastructure. The push for increases in charging infrastructure is
good for the environment, the economy and will create a wide array
of jobs for our workforce.

Our members are trained and ready to get to work on increasing
capacity for the electric vehicle industry across Oregon. We urge
your support of HB 4022.
