---

Please note...

If I'd had more time, I would have elaborated more on this topic. Sadly, this information arrived with little notice to respond. Therefore, I'm forwarding the standard remarks with some edits..

I oppose demolishing good old houses and cutting down neighborhood trees.

I oppose redevelopment of any neighborhood to apartments and condos with no parking.

I oppose the re-zoning of our neighborhoods without homeowners' input.

RIP will not help Portlanders who need affordable housing.

RIP ONLY Favors Real Estate **DEVELOPERS**.

I OPPOSE the Residential Infill Project. I hope you will consider Portland homeowners' viewpoints. After all, they are the caretakers of the community.

In the future, I hope Oregon residents will be given more notice of such changes and the ability to review new legislation that will effect all of us.

Thank you for your attention.

Best,
