

My wife and I are vehemently opposed to the passage of HB 2001! We are lifelong Oregonians and have witnessed first hand what residential infill has done to our city (Portland) and neighborhood what it will do elsewhere. Sadly, I have watched neighborhoods change to the worse, as neighbors encroach upon others and developers feed their greed. Lower income families are NOT benefiting from these new standards! Instead developers are taking advantage of deregulation and relaxed standards. Over crowding of properties, over saturation of infrastructure and straining educational facilities will become the source of constant bickering among your constituency! Slow down and get adequate public testimony before moving forward!! I am no longer proud of what I see happening in our City, State and Community!
