

To whom it may concern,

This email is in regards to the Mandatory Vaccination Bill that politicians are rapidly trying to pass. This **absolutely** concerns me for multiple reasons...

First, this bill would absolutely take away parental rights to choose what they feel is best for their **OWN** children. As a parent of four young children, this bill would be stripping me of my own rights to my children. This is **not** okay. *Not at all.*

As a parent, I do what I feel is the **BEST** and the **SAFEST** for **my** children.. I do this by feeding them a healthy diet, making sure they are getting antequate amount of sleep, teaching them to be honorable and respectable young people and in my case, picking and choosing what vaccines have gone into their precious bodies. Doing my **OWN** research and studies, I have made the choices that I have to protect them to the best of my ability. This bill would limit some of my rights.

**Second**, this bill would **discriminate** against a minority of the population... is that what we want? Discriminating against those who feel vaccines may cause injury to their children? Oregon's unvaccinated rate is only 2.6%, do we really need a mandated vaccine bill?

And third, by passing this bill you will be forcing those who do not partake in **ALL** 31 vaccines (as of now), to make the decision to either go against what they personally feel so their children can partake in public or private school, **OR** force parents to make the decision to homeschool their children. This, in my opinion, is against what we should have as parental rights.

Please consider **NOT** allowing the 'Mandatory Vaccination Bill HB 3063' to pass. Please allow parents to continue making choices for their **OWN** children and what they feel is best for their family..

Thank you for your consideration.

*Sincerely,*

A concerned constituent, Ashley Juarez
