

I, Antanina Boianoff, am oppose this proposed legislation. Religious Freedom is a Human Right and by mandating vaccinations you are taking away that right. My child my choice. I do not believe the government has a place to tell me what is right for my children. I am against the government taking away my right as a human being and demanding to inject my child with drugs. Using Public School (which my tax dollars go towards) as a weapon to scare people into giving up their rights is just wrong!

I believe its the parents right to immunize their children NOT the State.

Thank you,
Antanina Boianoff
