Testimony in opposition of HB 3063

Hello my name is Jackson Calhoun.

I live in Clackamas County.

I am Freshman at Rex Putnam High School

And I am currently at the top of my class with a 4.0 GPA.

I am one of the healthiest students at my school and am rarely sick.

I oppose House Bill 3063

This bill proposes to take away my human right to an education because of my personal belief.

I have a lot to contribute to society, but if I am denied an education I will be able to do very little.

Is it not also my human right to have bodily autonomy?

This bill threatens to take both of these fundamental rights away from not only me, but thousands of other children and teens.

In addition

There are hundreds of stories of death, or other serious injury occurring within hours after vaccination.

In the 2010 Whooping Cough Outbreak in California 81% of patients studied were fully vaccinated and an additional 11% were partially vaccinated.

This clearly shows that vaccines are NOT effective.

Why should I be denied my education and others be killed or live with long lasting health problems to mandate a vaccine that doesn't even work?

Unvaccinated and vaccine injury susceptible children have a HUGE potential to contribute to society, but if this bill is passed we will be denied our rights, our lives and our future.

I urge you to vote against this bill and allow me and thousands of other kids to attend school and have a future.

I am happy to answer any questions,

Thank you for your time.
