

My name is Dixie Nies. Please support medical freedom by opposing HB3063. I developed autoimmune issues after being vaccinated in 2012. Since then my life has been a struggle every day to find my health. I am currently applying for disability because of my illness. I do not want my son to go through what I have. His doctors have recommended for him not to vaccinate due to my experience, yet he does not qualify for a medical exemption. He is bright and loves school. It would be detrimental to his development to not be in school. Please oppose HB3063.

Thank you,

Dixie Nies
