

I oppose HB3063

It's is gross form of power to deny a child's education because of family values and religious views.

Schools should not harbor ideologies of Big corporate power.

I oppose the HB3063 and ask you to consider the impact it will have psychological in children Who are denied access to the very basic aspect of any child's live.

This reminds me of the Nazi, where Jews had to wear a red scarf around their arm and be outcasts for their believes.
