

# HB 3063- OPPOSE

---

Hello My name is Alyona, I live in Salem OR. Im writing a testimoney for the hearing, that is schedule for Febuary 28 2019, at Salem Oregon Capital. I am opposing the removal of non-medical exemptions. The key points why i oppose are below.

Mandating Vaccination for ALL students in Oregon for school attendance will [impact 31,521 students](#) that have filed a non-medical exemption, which will impact my children as well.

Exempt in Oregon means the student didn't receive [ALL 31 of 31 required](#) vaccines for school attendance.

Oregon has [extremely high MMR rates](#) across all counties. [OHA data on high vaccination rates](#) across Oregon.

7.5% of kindergarteners file an exemption form, meaning they could simply be exempt from ONE vaccine and not ALL vaccines.

[Only 2.6% of students](#) in K-12 are 100% UNVACCINATED so that means of the people who filed an exemption, [66% of them partially vaccinated](#) their kids! (Because only 2.6% of the 7.5% of exemptions did no vaccines, that means 4.9% did vaccinate,  $4.9/7.5=65\%$ )

[Exemption rates go up naturally](#) over time as a new vaccine is added to the

Issues related to vaccines should be governed by the states.

Over \$4 billion has been paid out for vaccine injuries and deaths and HHS estimates less than 1% of adverse events are reported. Mandating any procedure involving such risks is unethical.

HHS has failed in its Congressional directive to study vaccine safety for 30 years.

Mandating liability-free vaccines that have not been properly safety tested is in direct opposition to the first tenet of the Nuremberg Code: ***The voluntary consent of the human subject is absolutely essential.***

***I wish this Hearing that take place is be fair, balances and include opposing viewpoints.***
