

Hello,

My name is Harmony Mulkey and I am a resident of Aloha, Oregon District 15. I am writing to oppose HB 3063, the bill to end all non-medical vaccine exemptions for Oregon school children. I have three children and we pay for them to attend a private Christian school here in the Beaverton area. If this bill is to pass we would no longer be allowed to send them to the school that they love. As parents we choose not to vaccinate based on our religious beliefs. I believe parents should retain their rights to refuse any or all vaccinations without being threatened and persecuted for our beliefs. My children have a right to an education regardless of their vaccination status. My children are under the care of a doctor who believes in informed consent and he respects our decision and does not refuse service and medical care to my precious boys. This bill would interfere with the doctor/patient relationship and take away our rights as well as his.

My objections are for medical reasons, philosophical reasons, and religious reasons. If this bill was to pass my considerations for my family would not be valued. Please do not support this bill. Do not take away my rights as a parent to send my children to school.

Thank you for reading,
Harmony Mulkey
