

Testimony to Oppose Bill HB 3063

To Whom It May Concern;

I am writing this letter out of grave concern for our medical freedoms being taken away. The biggest threat to the health and well being of our children is this large vaccine schedule that has been implemented over the last 20 years! We are seeing more autoimmune, autism, attention deficit problems and list the list goes on including childhood cancers. The United States has one of the highest infant mortality rates even over third world countries, so we have ask ourselves are we helping our children or harming them? I believe we are poisoning them with heavy metals, toxic chemicals and RNA/DNA of other humans and animals through vaccines. (see the attachment of the list of ingredients in a vaccine)

If vaccines are so safe like the CDC wants you to believe then why are we not making the manufacturers, the doctors and nurses administering them liable for any adverse outcomes? They are not without risk and the side affects are worse than the diseases/infections that people are being vaccinated for. Chicken pox for example used to be a common illness that no one feared until the media hyped it up to be a dangerous illness and same with the measles. In fact, these childhood illnesses protect us from certain cancers. The sad part is no one is being educated about the truth of vaccines, not the doctors or the nurses who administer them really know what is in the vaccine and how it can harm a developing brain and nervous system and eventually trigger the immune system to attack the human body causing autoimmune disease.

Why have there not any studies to prove the safety and validity of vaccines? Our children are being used for huge profits for the manufactures of these vaccines as well as the investors who have patents, like the CDC. I feel it is a huge conflict of interest when the governing body that passes the laws to force someone into getting vaccines is the very person or business that is profiting from the sales! This needs to change! I feel it is negligent for our state government to pass laws that harm children and families where they have no recourse for compensation for the loss of a child or permanent injury from vaccines. I personally believe that you cannot put chemicals in the body and expect health to come out.

A person can look at the history of diseases and see even on the CDC website that vaccines did not eradicate the illness it was refrigeration and sanitation practices that started the decline of these illnesses, not the vaccines. Even Salk and Sabin the two inventors of the Polio virus admitted that the vaccine causes polio and warned people not to take the vaccine. When the vaccine was introduced in 1955 to school children there was a huge outbreak, but the media turned it around to scare people that they needed the vaccine to protect themselves instead of telling the true cause of the outbreak. We live in this world today. There is a great book I would recommend helping educate yourselves on the history of vaccines. It is called the "Sanctity of the Human Blood" by Dr. Tim O'Shea. He has studied vaccines for over 30 plus years.

I hope you, the decision makers respect how others feel regarding this hot volatile topic. No one should be forced to take a drug or vaccine against their beliefs whether it is religious, personal or medical. We should all have a choice on our health care decisions, since we must live with the outcome. I have attached some resources to support my opinions. I hope you will read them.

DO YOU KNOW WHAT'S IN A VACCINE?

NONE OF THESE SHOULD BE INJECTED INTO YOUR BODY

Aluminum

Known to cause brain damage at all doses, linked to ALZHEIMER'S DISEASE, dementia, seizures, autoimmune issues, SIDs and cancer. This toxin accumulates in the brain and causes more damage with each dose.

Beta-Propiolactone

Known to cause CANCER. Suspected gastrointestinal, liver, nerve and respiratory, skin and sense organ POISON.

Gentamicin Sulphate & Polymyxin B [antibiotics]

ALLERGIC reactions can range from mild to life-threatening.

Genetically Modified Yeast, Animal, Bacterial and Viral DNA

Can be incorporated into the recipient's DNA and cause unknown GENETIC MUTATIONS.

Glutaraldehyde

Poisonous if ingested. Causes BIRTH DEFECTS in animals.

Formaldehyde [formalin]

Known to cause CANCER in humans. Probable gastrointestinal, liver, respiratory, immune, nerve and reproductive system POISON. Banned from injectables in most European countries.

Latex Rubber

Can cause life-threatening allergic reactions.

Human and Animal Cells

Human DNA from aborted BABIES. Pig blood, horse blood, rabbit brains, dog kidneys, cow hearts, monkey kidneys, chick embryos, calf serum, sheep blood & more. Linked to childhood leukemia and diabetes.

Mercury [thimerosal]

One of the most toxic substances known. Even if a thermometer breaks, the building is cleared and HAZMAT is called. Tiny doses cause damage to the brain, gut, liver, bone marrow, nervous system and/or kidneys. Linked to autoimmune disorders, and neurological disorders like AUTISM.

Monosodium Glutamate [MSG]

A toxic chemical that is linked to birth defects, developmental delays and infertility. Banned in Europe.

Neomycin Sulphate [antibiotic]

Interferes with vitamin B6 absorption which can lead to epilepsy and brain damage. Allergic reactions can range from mild to life-threatening.

Phenol/Phenoxyethanol [2-PE]

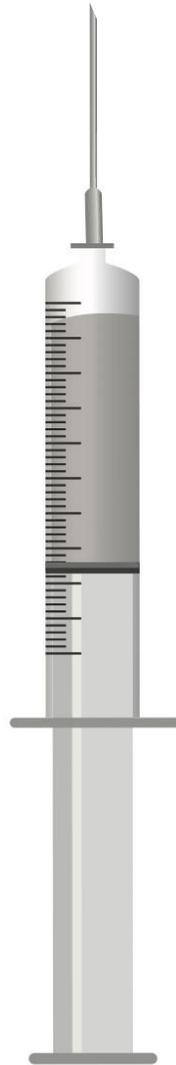

Used as anti-freeze. TOXIC to all cells and capable of destroying the immune system.

Polysorbate 80 & 20

Known to cause CANCER in animals and linked to numerous autoimmune issues and infertility.

Tri(n) Butylphosphate

Potentially toxic to the kidney and nervous system.
