

Good Morning,

I am writing this letter to show my support SB-365; thank you for taking the time to read it. My name is Hunter Neubauer and I live in Bend, Oregon. My family and I own a vertically integrated craft cannabis business and are concerned about what is being proposed on hard working small businesses in the industry.

I ask that you support SB-365. It is really important that cannabis land uses previously approved are not subject to re-zoning that could cause non-conformance. I have spent countless hours volunteering my time to help create a system that is fair and equitable to the now legal cannabis industry and it seems that all that work is constantly under attack by small special interest groups. I am honestly quite disturbed by what we are dealing with in Deschutes County. Reckless elected officials lie and push their personal agendas against the legal cannabis industry that continues to bring real tax revenue to our state. PLEASE help us.

In addition to creating some very reasonable protections for farmers in Deschutes County, supporting SB-365 will remove the SDC fees in Deschutes County that are unreasonably being charged on farms. These fees should not be applied to a farmland regardless of the crop they grow and those fees create an unequal opportunity here in Deschutes County for cannabis farmers when compared to other parts of Oregon. Those fees also add to the burdensome process that Deschutes County has adopted.

By supporting SB-365 you are supporting a fair and reasonable possibility that will make a big difference to myself, my family, and my community.

Thanks,

Hunter Neubauer
