

Dear Legislators:

I urge you to vote in favor of passing SB 428-1, the SBAC and ODE audit bill. The waste of taxpayer money on assessments and collateral damage being done to kids, teachers and our public school system are huge problems that beg an answer asap. Good, reliable, and valid data is needed to make good decisions. A well-done audit will help provide the information required to make positive changes to our public education system. PLEASE vote "YES".

Thank you for your time and consideration,

Paul "Pat" Eck, Taxpayer &
